

Business Model Canvas – *The Last One*

Key Partners

- Indie game publishers (for distribution & visibility)
 - Digital platforms (Steam, Epic Games Store)
 - Asset providers (Unity Asset Store, AI)
-

Key Activities

- Game development (Unity 2D, C#)
 - Level design & narrative design (story-driven progression)
 - Testing & bug fixing (performance + gameplay balance)
 - Marketing & promotion (trailers, social media)
 - Post-launch updates (bug fixes, minor improvements)
-

Value Proposition

- Immersive **story-driven 2D platformer experience**
 - Unique **long jump mechanic (skill-based gameplay)**
 - Clean, focused gameplay (no unnecessary complexity)
 - Emotional narrative with a **strong final boss ending**
 - Smooth and responsive controls for PC players
-

Customer Relationships

- Community engagement via Discord / social media
 - Player feedback integration (updates & patches)
 - Self-service (single-player offline experience)
 - Minimal support required (simple game design)
 - Occasional developer updates/devlogs
-

Customer Segments

- PC gamers who enjoy indie games

- Fans of **platformer & story-driven games**
 - Players who prefer **skill-based gameplay**
 - Casual to mid-core gamers
 - Students & young gamers (your primary audience)
-

Key Resources

- Development team (Sohaib, Musa, Hassan)
 - Unity Engine (technical platform)
 - Game assets (graphics, sound, UI)
 - Story & level design (core intellectual property)
 - PC hardware for development & testing
-

Distribution Channels

- Digital platforms:
 - Steam
 - Epic Games Store
 - Itch.io
 - Social media marketing:
 - YouTube (gameplay trailers)
 - TikTok / Instagram (short clips)
 - Game communities (Reddit, Discord)
-

Cost Structure

- Development time (main cost as student project)
 - Software/tools (Unity – mostly free)
 - Asset purchases (if any premium assets used)
 - Marketing costs (ads, promotions)
 - Testing & deployment costs
-

Revenue Streams

- One-time purchase (premium game)
- Optional:
 - Free demo → Paid full version
 - Donations (if uploaded on Itch.io)
- Future potential:
 - Sequel or expanded version
 - DLC (extra levels/story – optional)
